Lutsk, 03 April 2022

Dear friends,

Since February 24, Ukraine has been fighting new full-scale Russian military aggression. Putin's war has already killed thousands of people and caused great destruction. However, the Ukrainian people are showing incredible resilience and indomitable spirit. We became united in our desire for protecting the civilian population and help those who need our support.

In this context, different types of international assistance from states, NGOs and ordinary people are of great importance. Ukraine receives incredible support from Denmark. Danish NGOs like the Aaby Parish Hunting Association (Aaby Sogn Jagtforening) are providing Ukrainians with the necessary equipment during wartime. Clothing, footwear and additional equipment donated by Jesper Sommer, Henning Kiil and other members of your organization will make a significant contribution to the victory of the entire Ukrainian people.

Along with my team, I have already delivered most of what you donated to the servants and ordinary people who have suffered from the actions of Russian occupiers in different parts of Ukraine. Be sure that your help is already where it is most needed.

We are well aware that Aaby Parish Hunting Association members help us because you believe in our victory, in the victory of Ukrainians. We express our gratitude to all of you and send our warm greetings from the Volyn region. We hope that the time will soon come when we will be able to meet with you in a peaceful and prosperous Ukraine.

Slava Ukraini! Glory to Ukraine!

**Best regards,
Deputy of Volyn Regional Council**

Ivan Myrka
